PROJECTS

ShowTimesSaga WEB Application (ClickMe:)

- It can be used to search movies and get more information like ratings, actors, plot, etc. You can also watch the videos related to that movie such as trailers in real-time.
- Tools used: React.js, OMDB API, Youtube API.

Language Translation Android App

- Built an Android application for language translation with Android Studio using Java.

Travelsphere

- Took part in an Appathon conducted in my college and we built an app called Travelsphere which stood top ten among all the participants.

PROFESSIONAL EXPERIENCE

Software Engineer Intern

GPTfu (One Convergence) | 31st March 2023 - 31st Aug 2023

- As an intern, we as a team worked on adding more functionalities and features to the web app.
- I was also worked on the security of the site.
- Technologies used: Kali Linux, PHP, Docker.

Web Development Intern

Quebec Technologies | 25th August 2022-25th October 2022

- As an intern at Quebec Solutions, I enhanced a basic website by incorporating various features such as animations, and effects and also implemented a loader.
- I worked on the front end of the project and gave a professional look to it.

TRAININGS AND WORKSHOPS

- Participated in a webinar on “Tools and Technologies in Artificial Intelligence”.
- Desktop Music Production (Logic Pro).

EXTRA-CURRICULARS

- NSS student since a year.
- Co-ordinator of clubs in college - Sparta and Page Turner's
- Squash and Badminton.
